Wood Effects

Wood Effects on Soundscapes

Wood Effects combines the attractiveness and exclusivity of a natural wood surface with all the advantages of a high performance soft fiber absorber without natural drawback .

Applicable For All Standard Soundscapes Range

Curly Birch	Light Bamboo	Casuarina	Cherry	Western Red Cedar	Jarrah	Walnut	Kwila

Due to printing limitations, shade may vary from actual product.

Design Consideration
Wood Effects and Custom Powder coating finishing may have subtle difference between production runs as well as over time.
Finishing for lateral edges of Wood Effects panel shall be matched in the closest solid tone.
